

- questions:
 - who will be the main users of this app?
 - history department
 - alumni
 - students
 - staff
 - visitor
 - HR department
 - staff
 - faculty
 - does this application need to be Android focused or IOS focused?
 - both would be preferred
 - what are the main must-have features the app needs?
 - pictures
 - view
 - zoom in feature
 - audio/Video
 - play button
 - captions
 - GPS location
 - game?
 - virtual tour of residence halls
 - need to login
 - data v. wifi
 - what is open to the public and what is not
 - ability to update data
 - syncing things offline
 - how will the app be distributed?
 - will we have access to the history that we are implementing into the app?
 - does this app need to interact with other projects on campus or just on its own
- additional notes:
 - different information
 - want multiple tours and routes throughout the app
 - interact with geopositioning
 - walking distance calculator
 - ideas:
 - game
 - qr codes
 - scavenger hunt
 - club tours
 - scroll on years
 - 2D map
 - accelerometer
 - watermark photos?
